Independent auditor's report with respect to the Annual Accounts of the Transform Europe for the year ended 31 December 2020

In accordance with our service contract dated 5 January 2021 with the European Union represented by the European Parliament, we report to you as independent auditor on the performance of our audit mandate which was entrusted to Grant Thornton Bedrijfsrevisoren CVBA. This report includes our opinion on the balance sheet as at 31 December 2020, the income statement for the year ended 31 December 2020 and the disclosures (all elements together the "Annual Accounts") using the abbreviated schedule and on the Final Statement of eligible expenditure actually incurred as well as on compliance with rules and regulations applicable to funding of European political parties and European political foundations and includes as well our report on regulatory requirements. These two reports are considered as one report and are inseparable.

We have been appointed as independent auditor by the European Parliament in our contract dated 5 January 2021. Our mandate expires after the delivery of our audit opinion for the year ended 31 December 2021.

Report on the audit of the Annual Accounts and the Final Statement of eligible expenditure actually incurred

Unqualified opinion

We have audited the Annual Accounts of Transform Europe (the "Entity"), that comprise the balance sheet on 31 December 2020, as well as the income statement of the year and the disclosures, which show a balance sheet total of \le 284.778 and of which the income statement shows a profit for the year of \le 6.805.

In our opinion, the Annual Accounts give a true and fair view of the Entity's net equity and financial position as at 31 December 2020, and of its results for the year then ended, prepared in accordance with the financial reporting framework applicable in Belgium, using the abbreviated schedule.

We have also audited the Final Statement of eligible expenditure actually incurred for the year ended 31 December 2020, in accordance with rules and regulations applicable to funding of European political parties and European political foundations, of Transform Europe.

In our opinion, the Final Statement of eligible expenditure actually incurred of the Entity for the year ended 31 December 2020 is prepared, in all material respects, in accordance with rules and regulations applicable to funding of European political parties and European political foundations.

Basis for the unqualified opinion

We conducted our audit in accordance with International Standards on Auditing ("ISA"). Our responsibilities under those standards are further described in the "Our responsibilities for the audit of the Annual Accounts and the Final Statement of eligible expenditure actually incurred" section of our report.

We have complied with all ethical requirements that are relevant to our audit, including those with respect of independence.

We have obtained from the Members of the Board and the officials of the Entity the explanations and information necessary for the performance of our audit and we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter - Basis of Accounting and Restriction on Distribution

We draw attention to the Final Statement of eligible expenditure actually incurred. This schedule is prepared to assist the Entity to meet the requirements of the European Parliament. As a result, the schedule may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Emphasis of Matter - Going concern

We draw your attention to the disclosure on page C-asbl 6.18 of to the Annual Accounts relating to the preparation of the Annual Accounts under the assumption that the activities will be continued, despite its financial position. This assumption is reasonable as long as the Entity continues to receive financial support from the European Parliament or other sources. Our opinion is not modified in respect of this matter.

Other Matters

We draw your attention to the developments surrounding the Covid-19 virus that has a profound impact on people's health and on society as a whole. This also has an impact on the operational and financial performance of organisations and the assessment of the Entity's ability to continue as a going concern. The situation gives rise to inherent uncertainty. The Entity has not made any disclosure of its assessment of the impact of Covid-19 in the Annual Accounts. We have considered the uncertainties related to the potential effects of Covid-19 and the assumptions made by the Entity in this respect on its operations and financial situation. Our opinion is not modified in respect of this matter.

On 31 January 2020, the United Kingdom withdrew from the European Union and the European Atomic Energy Community (EURATOM). Following intense negotiations, an agreement on future EU-UK relations was concluded end of December 2020. The Entity has not made any disclosure of its assessment of the impact of Brexit and the aforementioned agreement in the Annual Accounts. We have considered the uncertainties related to the potential effects of Brexit and the assumptions made by the Entity in this

respect on its operations and financial situation. Our opinion is not modified in respect of this matter.

Responsibilities of the Members of the Board for the preparation of the Annual Accounts and the Final Statement of eligible expenditure actually incurred

The Members of the Board are responsible for the preparation of the Annual Accounts that give a true and fair view in accordance with the reporting framework applicable in Belgium and the Final Statement of eligible expenditure actually incurred. This responsibility includes: designing, implementing and maintaining internal control which the Members of the Board determine to be necessary to enable the preparation of the Annual Accounts and the Final Statement of eligible expenditure actually incurred that are free from material misstatement, whether due to fraud or error.

The Members of the Board are responsible towards the European Parliament for the use of the grant awarded and must comply with the provisions of the Regulation (EU, Euratom) No 1141/2014, Regulation (EU, Euratom) 2018/1046 ('the Financial Regulation') and the underlying acts.

As part of the preparation of the Annual Accounts, the Members of the Board are responsible for assessing the Entity's ability to continue as a going concern, and provide, if applicable, information on matters impacting going concern. The Members of the Board should prepare the Annual Accounts using the going concern basis of accounting, unless the Members of the Board either intend to liquidate the Entity or to cease business operations, or has no realistic alternative but to do so.

Our responsibilities for the audit of the Annual Accounts and the Final Statement of eligible expenditure actually incurred

Our objectives are to obtain reasonable assurance whether the Annual Accounts and the Final Statement of eligible expenditure actually incurred are free from material misstatement, whether due to fraud or error, and to express an opinion on these Annual Accounts and Final Statement of eligible expenditure actually incurred based on our audit. Reasonable assurance is a high level of assurance, but not a guarantee that an audit conducted in accordance with the ISA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Annual Accounts and the Final Statement of eligible expenditure actually incurred.

When performing our audit, we comply with the legal, regulatory and normative framework that applies to the audit of the financial statements in Belgium. However, a statutory audit does not provide assurance as to the future viability of the Entity nor as to the efficiency or effectiveness with which the governing body has conducted or will conduct the Entity's business. Our responsibilities regarding the assumption of going concern applied by the governing body are described below.

Furthermore, with respect to the Final Statement of eligible expenditure actually incurred, it is our responsibility to express an opinion on the compliance with rules and regulations applicable to funding of European political parties and European political foundations.

As part of an audit, in accordance with ISA, we exercise professional judgment and we maintain professional scepticism throughout the audit. We also perform the following tasks:

- Identification and assessment of the risks of material misstatement of the Annual Accounts and the Final Statement of eligible expenditure actually incurred, whether due to fraud or error, the planning and execution of audit procedures to respond to these risks and obtain audit evidence which is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting material misstatements is larger when these misstatements are due to fraud, since fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtaining insight in the system of internal controls that are relevant for the audit and
 with the objective to design audit procedures that are appropriate in the circumstances,
 but not for the purpose of expressing an opinion on the effectiveness of the Entity's
 internal control;
- Evaluating the selected and applied accounting policies, and evaluating the reasonability
 of the accounting estimates and related disclosures made by the Members of the Board
 as well as the underlying information given by the Members of the Board;
- Conclude on the appropriateness of the Members of the Board's use of the going concern basis of accounting, and based on the audit evidence obtained, whether a material uncertainty exists related to event or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Annual Accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going-concern;
- Evaluating the overall presentation, structure and content of the Annual Accounts and
 the Final Statement of eligible expenditure actually incurred, and evaluating whether
 these Annual Accounts and the Final Statement of eligible expenditure actually incurred
 reflect a true and fair view of the underlying transactions and events.

We communicate with the Members of the Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on regulatory requirements

Responsibilities of the Members of the Board

The Members of the Board are responsible for the compliance by the Entity with the legal and regulatory requirements applicable in Belgium, its articles of association, the legal and regulatory requirements regarding bookkeeping and the provisions of the Grant Agreement between the European Parliament and the Entity ('the Funding Agreement'), Regulation (EU, Euratom) No. 1141/2014, Regulation (EU, Euratom) 2018/1046 ('the Financial Regulation') and the underlying acts.

Responsibilities of the auditor

Our audit work included specific procedures to gather sufficient and appropriate audit evidence to verify, in all material respects, that the financial provisions and obligations of the grant award agreement, Regulation (EU, Euratom) No 1141/2014, Regulation (EU, Euratom) 2018/1046 ('the Financial Regulation') and the underlying acts have been met.

Independence matters

We have not performed any other services that are not compatible with the audit of the Annual Accounts and the Final Statement of eligible expenditure actually incurred and we have remained independent of the Entity during the course of our mandate.

Other communications

- Without prejudice to certain formal aspects of minor importance, the accounting records were maintained in accordance with the legal and regulatory requirements applicable in Belgium;
- The costs declared were actually incurred;
- The statement of revenue is exhaustive;
- The financial documents submitted by the entity to the European Parliament are consistent with the financial provisions of the Funding Agreement;
- The obligations arising from Regulation (EU, Euratom) No 1141/2014, in particular from Article 20 thereof, have been met;
- The obligations arising from the Funding Agreement, in particular from Article II.9 and Article II.19 thereof, have been met;
- Any surplus of Union funding is carried over to the next financial year and has been used in the first quarter of that financial year, pursuant to Article 222(7) of the Financial Regulation;
- Any surplus of own resources was transferred to the reserve;
- We were not yet provided with the financial statements prepared in accordance with the international accounting standards defined in article 2 of regulation (EC) No 1606/2002. The financial statements prepared in accordance with the international accounting standards will be subject to a separate audit opinion.

Transform Europe

Independent auditor's report on the Financial Statements for the year ended 31 December 2020

Grant Thornton Bedrijfsrevisoren SCRL

Registered Office Uitbreidingstraat 72 bus 1 2600 Berchem Belgium

www.grantthornton.be

Independent auditor's report on the Financial Statements in accordance with International Financial Reporting Standards of Transform Europe for the year ended 31 December 2020

Unqualified opinion

We have audited the Financial Statements of Transform Europe (the "Entity"), which comprise the statement of financial position as at 31 December 2020, as well as the statement of profit or loss and the statement of comprehensive income for the year then ended, the statement of changes in equity and statement of cash flows for the year then ended, and notes to the Financial Statements, including a summary of significant accounting policies.

In our opinion, the accompanying Financial Statements give a true and fair view of the financial position of the Entity as at 31 December 2020, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for unqualified opinion

We conducted our audit in accordance with International Standards on Auditing (ISA). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the Financial Statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter - Going concern

We draw your attention to the disclosure on page 11 of the Financial Statements relating to the preparation of the Financial Statements under the assumption that the activities will be continued, despite its financial position. This assumption is reasonable as long as the Entity continues to receive financial support from the European Parliament or other sources. Our opinion is not modified in respect of this matter.

Other Matters - Auditor's Opinion on the Annual Accounts and the Final Statement of eligible expenditure actually incurred

We have also audited the Annual Accounts of the Entity prepared in accordance with the financial reporting framework applicable in Belgium and the Final Statement of eligible expenditure actually incurred, prepared in accordance with rules and regulations applicable to funding of political parties and political foundations at European level. In this regard, we have issued our audit report dated 23 September 2021.

Other Matters

We draw your attention to the developments surrounding the Covid-19 virus that has a profound impact on people's health and on society as a whole. This also has an impact on the operational and financial performance of organisations and the assessment of the Entity's ability to continue as a going concern. The situation gives rise to inherent uncertainty. We have considered the uncertainties related to the potential effects of Covid-19 and the assumptions made by the Entity in this respect on its operations and financial situation. Our opinion is not modified in respect of this matter.

On 31 January 2020, the United Kingdom withdrew from the European Union and the European Atomic Energy Community (EURATOM). Following intense negotiations, an agreement on future EU-UK relations was concluded end of December 2020. We have considered the uncertainties related to the potential effects of Brexit and the assumptions made by the Entity in this respect on its operations and financial situation. Our opinion is not modified in respect of this matter.

Responsibilities of the Board of Directors for the preparation of the Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of the Financial Statements in accordance with IFRS, and for such internal control as the Board of Directors determine is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

Pursuant to paragraph 1 of Article 23 of Regulation (EU, Euratom) No 1141/2014, the Entity is required to maintain and report on their Financial Statements on the basis of international accounting standards as defined in Article 2 of Regulation (EC) No 1606/2002.

In preparing the Financial Statements, the Board of Directors are responsible for assessing the Entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Entity or to cease operations, or have no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

The audit has been performed following our appointment by the European Parliament, which seeks to obtain assurance relating to the Entity's adherence to its obligations under Article 23 of Regulation (EU, Euratom) No 1141/2004.

As part of an audit in accordance with ISA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design
 audit procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors or their delegates regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Restriction on use and distribution

The opinion transmitted is only intended for the Entity and for the European Parliament. It may not be distributed or made available to any other parties, except those who have regulatory rights of access to it. Any review, transmission, dissemination or other use of, or taking of any action in reliance upon this information by any persons or entities other than the Entity or the European Parliament is prohibited and we will not assume any duty of care or liability towards these persons or entities.

Notes to the financial statements for the year ended 31 December 2020

1. General information

transform! europe is a non-profit-Foundation incorporated and domiciled in Belgium. The registered office is located at Square de Meeûs 25, B-1000 Bruxelles. The Foundation acts on political issues.

Auditors

The statutory audit of the standalone financial statements is performed by Grant Thornton Bedrijfsrevisoren CVBA, represented by Gunther Loits.

Financial statements

The financial statements as of and for the year ended 31 December 2020 were authorized for issue in accordance with a resolution of the Board of Directors on 20 April 2022.

Figures in the financial statements

These financial statements are presented in euro, which is the Foundation's presentation currency and the functional currency of the Foundation. All amounts in these financial statements are presented in euro, unless otherwise stated.

Board of directors

At the end of the financial period, the Board of Directors was composed of the following members:

Name	Function	Start of mandate	End of mandate
Walter Baier	Member	25.09.2020	23.09.2022
Czeslaw Kulesca	Member	25.09.2020	23.09.2022
Sam Carlshamre	Member	25.09.2020	23.09.2022
Barbara Steiner	Political Coordinator	25.09.2022	23.09.2022
Cornelia Hildebrandt	Co-President	25.09.2020	23.09.2022
Danai Koltsida	Member	25.09.2020	23.09.2022
Yann Le Lann	Member	25.09.2020	23.09.2022

Jiri Malek	Member	25.09.2020	23.09.2022
Hugo Monteiro	Member	25.09.2020	23.09.2022
Roberto Morea	Member	25.09.2020	23.09.2022
Jukka Pietiläinen	Member	25.09.2020	23.09.2022
Marga Ferre	Co-President	25.09.2020	23.09.2022
Roberto Musacchio	Member	25.09.2020	23.09.2022

2. Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1. Basis of preparation

The financial statements of the Foundation for the year ended 31 December 2020 have been prepared in accordance with International Financial Reporting Standards ("IFRS") and IFRS Interpretations Committee (IFRIC) interpretations as endorsed by the European Union

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Foundation's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

Going concern

The financial statements have been prepared on a going concern basis on the directors' confidence that the Foundation will continue to receive the European Parliament Grant and also generate other own resources. The historical cost convention and the accrual basis of accounting have been used to prepare the financial statements.

2.2. Summary of significant accounting policies

a) Current versus non-current classification

The Foundation presents assets and liabilities in the statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle, meaning within a calendar year,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Foundation classifies all other liabilities as non-current.

b) Foreign currencies

Functional and presentation currency

Items included in the financial statements of the Foundation are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The financial statements are presented in euro (EUR), which is the Foundation's presentation currency and the functional currency of the Foundation.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Foundation at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

The Foundation has limited transactions in foreign currency, therefore the foreign exchange risk is not considered to have a significant impact on the profit before tax and pre-tax equity.

Exchange rates used in the financial statements

Items included in the financial statements of the Foundation are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The financial statements are presented in euro (EUR), which is the Foundation's presentation currency and the functional currency of the Foundation.

c) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as finite. The Foundation does not have any intangible assets with an indefinite useful life.

Intangible assets with finite useful lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite useful lives is recognized in the income statement in the expense category that is consistent with the function of the intangible assets.

An intangible asset is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the income statement when the asset is derecognized.

Website costs

Research costs are expensed as incurred. Website development costs are only recognized as intangible asset if: 1/ it can be demonstrated that the website will generate probable future economic benefits when, for example, donations can be made through the website and 2/ the Foundation can demonstrate:

- ✓ The technical feasibility of completing the intangible asset so that the asset will be available for use or sale;
- ✓ Its intention to complete and its ability and intention to use or sell the asset;
- ✓ How the asset will generate future economic benefits;
- ✓ The availability of resources to complete the asset; and
- ✓ The ability to measure reliably the expenditure during development.

Directly attributable costs that are capitalized as part of the intangible asset include costs incurred for external consultants and an appropriate portion of relevant overheads.

Other development expenditures that do not meet these criteria are recognized as an expense as incurred. Development costs previously recognized as an expense are not recognized as an asset in a subsequent period.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortization and accumulated impairment losses. Amortization will begin when development is completed and the asset is available for use. The costs are amortized using the straight-line method over their estimated useful lives (4 years). During the period of development, the asset is tested for impairment annually.

d) Property, plant and equipment

The Foundation's property, plant and equipment are mainly composed of IT equipment, furniture, office equipment, leasehold improvements and right-of-use assets relating to lease contract of offices, vehicles and IT equipment.

Property, plant and equipment are stated at historical cost less subsequent depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will

flow to the Foundation and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation on the assets is calculated using the straight-line method to allocate their cost over their estimated useful lives. These useful lives have been determined as follows:

Furniture and material	1-10 years
Leasehold improvements	The shorter of the lease term and the asset's
	economic life

The methods of depreciation of property, plant and equipment are reviewed at each financial yearend and adjusted prospectively, if appropriate. Where an asset's carrying amount is greater than its estimated recoverable amount, it is written down to its recoverable amount.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

e) European Parliament grants

The Party receives a grant from the European Parliament, which is awarded at the beginning of each accounting year since January 1st, 2019, whereas before it was most of the time awarded at the end of the prior accounting year. At this moment there is a reasonable assurance that the grant will be received and all attached conditions (execution of the work plan) will be complied with. Since the grant relates to expense items, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed.

The Foundation makes an assessment at the end of the accounting year of the amount of eligible expenditure it has incurred. The portion of the grant that will cover this expenditure is recorded at as income in the income statement. Two scenario can occur:

- Scenario 1 in which the amount of eligible expenditure matches the grant amount or exceeds the grant amount. In this scenario, the entire grant is recorded as income in the income statement,
- Scenario 2 in which the amount of eligible expenditure is less than the grant amount. In this scenario, the portion of the grant that is not used can be carried over to the next year. The

amount of the carry-over will be accounted for as a liability in the balance sheet and will be released the next accounting year once the expenditure it is intended to cover has been incurred.

At the end of the reporting period, the final balance is determined after the external audit. The expenditure that is rejected through this audit may lead to a reduction of the final grant and can result in a reimbursement of a portion of the grant by the political foundation to the European Parliament. After payment of the final balance, the European Parliament can as well perform an audit even up till 5 years after the payment. This audit can also lead to a reduction of the grant amount and a reimbursement. If the Foundation has to make a reimbursement to the European Parliament, the Foundation needs to account for a liability.

f) Cash and cash equivalents

Cash and short-term deposits in the statement of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Foundation's cash management.

g) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss. The Foundation's financial assets are composed of trade and other receivables and cash and cash equivalents. These financial assets have been classified as subsequently measured at amortised cost, except for cash and cash equivalents.

The trade receivables do not contain a significant financing component and have been initially measured at the transaction price determined under IFRS 15. The cash and cash equivalents have been initially measured at fair value plus transaction costs.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets at amortised cost (debt instruments),
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments), or with no recycling of cumulative gains and losses upon derecognition (equity instruments),
- Financial assets at fair value through profit or loss.

The Foundation's financial assets are classified as financial assets at amortised cost (debt instruments) since both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The financial assets are derecognized when the rights to receive cash flows from the asset have expired.

In terms of impairment of the trade receivables, the Foundation applies a simplified approach in calculating Expected Credit Losses (ECL). The Foundation does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. A provision matrix that is based on historical credit loss experience has been established, which is adjusted for forward-looking factors specific to the debtors and the economic environment.

All financial assets are fully written off after two years when there is no reasonable expectation of recovering the contractual cash flows. However, in certain cases, the Foundation may also consider a financial asset to be in default when internal or external information indicates that the Foundation is unlikely to receive the outstanding contractual amounts in full.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Foundation's financial liabilities include trade and other payables and loans and borrowings including bank overdrafts.

Subsequent measurement

The measurement of financial liabilities depends on their classification. The Foundation's financial liabilities are all classified in the category loans and borrowings, or the category payables.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

The financial liabilities are derecognized when the obligation under the liability is discharged or cancelled or expires.

Offsetting financial instruments:

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The Foundation does not offset its financial assets and liabilities.

h) Impairment of non-financial assets

The Foundation assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Foundation estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down

to its recoverable amount. Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

There were no indications that assets may be impaired during the accounting period. Moreover, the Foundation does not have intangible assets that are not ready to use or are not subject to amortization. As a result, there is no requirement to perform a yearly impairment test.

i) Provisions for other liabilities and charges

A provision is recognized when the Foundation has a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Foundation expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

j) Leases – lessee accounting

The Foundation assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Foundation leases office workspace and marginal IT equipment. The Foundation applied a single recognition and measurement approach for all leases for which it is the lessee. The Foundation recognised lease liabilities and right-of-use assets representing the right to use the underlying assets. In accordance with IFRS 16, the simplified modified retrospective method has been applied for the transition to IFRS 16 at the date of initial application of 1 January 2019.

Lease liabilities

At the commencement date of the lease, the Foundation recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be payable under residual value guarantees. The lease payments also include the exercise price of a purchase option if reasonably certain to be exercised by the Foundation and payments of penalties for terminating a lease, if the lease term reflects the Foundation exercising the option to terminate.

Variable lease payments that do not depend on an index or a rate are recognised as expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Foundation uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

The Foundation selected the accounting policy to present interest paid on lease liabilities as part of the cash flows for financing activities.

Right-of-use assets

The Foundation recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of initial measurement of the lease liability, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Underlying assets	Depreciation period
Vienna office	5 years
Brussels office	5 years
Rome office	6 years

If ownership of the leased asset transfers to the Foundation at the end of the lease term, or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful live of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section re 'Impairment of non-financial assets'.

Short-term leases and leases of low-value assets

The Foundation applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value.

Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

The information about leases is included in the following notes:

Depreciation charges on right-of-use assets	Note 6 Expense by nature
Interest expense on lease liabilities	Note 7 Finance income and costs
Right of use assets movement	Note 9 Property, plant and equipment
Lease liabilities movement	Note 10 Financial assets and financial liabilities

k) Revenue from contracts with customers

IFRS 15 establishes a five-step model for recognizing revenue from contracts with customers. Under IFRS 15, revenue is recognized for the amount of consideration an entity expects to be entitled to in exchange for goods or services transferred to a customer.

The Membership Fees are ruled in the articles of association §7. Membership fees are fixed in euro; they are payable without deduction of incurred costs, and are adjusted annually in line with Belgian inflation. The Fees are paid annually in advance, falling due on 1 January each year. The annual fee is € 100. As such the revenue that is recorded 31 December equals the membership fees received for the respective year.

In line with the IFRS requirements the Company will cease to account for revenue when the collectability criterion is no longer met.

2.3. Changes in accounting policies and disclosures

The Foundation applied IFRS 16 Leases for as from 1 January 2019. The nature and effect of the changes as a result of adoption of this new accounting standard is described below.

Several other amendments and interpretations apply for the first time in 2020, but do not have an impact on the financial statements of the Foundation. The Foundation has not early adopted any standards, interpretations or amendments that have been issued but are not yet effective.

IFRS 16 Leases

IFRS 16 was issued in January 2016 and supersedes IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise most leases on the balance sheet.

The Foundation adopted IFRS 16 using the modified retrospective method with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application. The Foundation elected to apply the standard only to contracts that were previously identified as leases applying IAS 17 and IFRIC 4. The Foundation will therefore not apply the standard to contracts that were not previously identified as containing a lease applying IAS 17 and IFRIC 4. The Foundation also elected to use the exemptions on lease contracts for which the lease terms ends within 12 months as of the date of initial application, and lease contracts for which the underlying asset is of low value.

The Foundation leases certain office equipment (i.e., a printing machine) which is considered of low value.

The Foundation mainly leases office workspaces that are accounted for in accordance with IFRS 16 as from 1 January 2019 and were previously accounted for as operating leases under IAS 17.

The Foundation recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets. The right-of-use assets were recognised based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognised. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application or the interest rate implicit in the lease when available.

The Foundation also applied the available practical expedients wherein it:

- Applied the short-term leases exemptions to leases with lease term that ends within 12 months of the date of initial application
- Applied the low value exemption to leases for which the underlying assets value is lower than 5.000 EUR
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease

2.4. Standards issued but not yet effective

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Foundation's financial statements are disclosed below. The Foundation intends to adopt these standards and interpretations, if applicable, when they become effective.

- Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures Interest Rate Benchmark Reform, effective 1 January 2020
- Amendments to IAS 39 Financial Instruments: Recognition and measurement and IFRS 7 Financial Instruments: Disclosures Interest Rate Benchmark Reform, effective 1 January 2020
- IFRS 17 Insurance Contracts, effective 1 January 2021
- Amendments to IAS 1 Classification of Liabilities as Current or Non-Current, effective 1 January 2022
- Amendments to IAS 1 and IFRS Practice Statement 2 Disclosure of Accounting Policies, effective 1 January 2023
- Amendments to IAS 8 Definition of Accounting Estimates, effective 1 January 2023
- Amendments to IFRS 16 Covid-19-Related Rent Concessions beyond 30 June 2021, effective 1 April 2021
- Amendments to IFRS 1 Deferred Tax Related to Assets and Liabilities arising from a Single Transaction, effective 1 January 2023
- Amendments to IFRS 4: Insurance Contracts deferral of IFRS 9: applicable for annual periods beginning on or after January 1, 2021.
- Amendments to IAS 16: Property, Plant and Equipment: Proceeds before Intended Use: applicable for annual periods beginning on or after January 1, 2022.
- Amendments to IAS 37: Provisions, Contingent Liabilities and Contingent Assets: Onerous Contracts - Cost of Fulfilling a Contract: applicable for annual periods beginning on or after January 1, 2022.
- Amendments to IFRS 3: Business Combinations: Reference to the Conceptual Framework: applicable for annual periods beginning on or after January 1, 2022.

• Annual improvements to IFRS Standards (2018 - 2020 cycle): applicable for annual periods beginning on or after January 1, 2022.

3. Critical accounting estimates and judgments

The preparation of the Foundation's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of asset or liability affected in future periods.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Foundation based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Foundation. Such changes are reflected in the assumptions when they occur.

Determining the lease term of contracts with renewal options

The Foundation determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. For extension options, the Foundation applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal.

After the commencement date, the Foundation reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

Recovery order European Parliament Grant

The external auditor and/or auditor of the European Parliament can reject expenditure of the Foundation if not eligible. This can result in a recovery order being issued to the Foundation and hence a reimbursement of a portion of the grant. If this is the case, the Foundation sets up a liability at year end. In December 2020 this provisions liability amounts to EUR 0 (2019: EUR 0).

4. Revenue from contracts with customers

The line item "Revenue from contracts with customers" in the income statement relates to:

EUR	2020	2019
Type of revenue		
Membership fees:		
- From associate members	1.700	1.900
Total revenue from contracts with customers		
Geographical market		
Membership fees:		
- From Italy	100	200
- From Poland	100	100
- From Others	1.500	1.600
Total revenue from contracts with customers	1.700	1.900

The revenue of the membership fees is recorded over time as the service is delivered throughout the year. The trade receivables amount to \leqslant 0,00 at 31 December 2020 (\leqslant 1.909 in 2019). These receivables are non-interest bearing and are generally on terms of 1 to 90 days.

5. Other income

The line item "Other income" in the income statement relates to:

EUR	2020	2019
Other income		
European Parliament Grant	1.102.913	1.096.144
EP Carry-over	-168.000	11.047
Donations:		
- Above EUR 500	17.034	31.437
- Below EUR 500	951	5.107
Total other income	952.898	1.143.735

6. Expenses by nature and other operating income

A breakdown of the "General and administrative expenses" by nature can be found in the table below:

EUR	2020	2019
Research and development costs	406.546	376.468
Wages and salaries	348.292	322.315
Event costs	40.329	229.429
Meetings and representation costs	28.980	103.444
Social security costs	74.665	59.494
Office cost	35.264	32.967
Other personnel costs	19.252	27.741
Depreciation on right of use - offices		23.349
Depreciation property, plant and equipment	11.441	15.888
Rent	7.962	8.216
Other	1.375	8.458
Total	974.106	1.207.770

A breakdown of the "Other operating income/(expenses) - net" by nature can be found in the table below. The income is presented with a negative sign and the expenses are presented with a positive sign.

	2020		20)19
EUR	Other operating (income)	Other operating expenses	Other operating (income)	Other operating expenses
Contribution in kind Cooperation agreements with partners Rewards of contest study papers	(50.000)		- (84.284) 	-
Other (income)/expense		-	-	1.000
Total	-50.000)	-84.284	1.000

7. Finance income and costs

EUR	2020	2019
Finance costs		
Interest expense on bank overdrafts	-	
Interest on lease liabilities	1.970	2.211
Total finance costs	1.970	2.211

8. Employee benefit expense

_	20	20	2019

Employer related costs	19.252		27.741	<u> </u>	
Total employee benefit expense	442.209	-	409.550	-	

	2020	2019
Average number of employees - head office	11	9
Total average number of employees	11	9

9. Property, plant and equipment

EUR	Furniture and material	Leasehold improvements	Right-of- use offices	Total
Period ended 31 December 2019				
Initial application of IFRS 16 as of 1 January 2019	-	-	128.430	128.430
Additions	2.466	-	-	2.466
Disposals	-	-	-	-
Closing Cost or Valuation at 31 December 2019	98.245	27.927	128.430	254.602
Accumulated depreciation on disposals	-	-	-	-
Depreciation charge for the year	(12.970)	(2.918)	(23.349)	(39.237)
Closing Accumulated depreciation, impairments and other adjustments at 31 December 2019	-54.771	-11.990	-23.349	-90.110
Closing net book value at 31 December 2019	43.474	15.937	105.081	164.492

Period ended 31 December 2020				
Initial application of IFRS 16 as of 1 January 2020	-	-		
Additions	4.567	-	-	4.567
Disposals	-	-	-	-
Closing Cost or Valuation at 31 December 2020	102.812	27.927	128.430	259.169
				_
Accumulated depreciation on disposals	-	-	-	-
Depreciation charge for the year	(8.631)	(2.918)	(23.349)	(34.898)
Closing Accumulated depreciation, impairments and other adjustments at 31 December 2020	-63.402	-14.908	-46.698	-125.008
Closing net book value at 31 December 2020	39.410	13.019	81.732	134.294

The actual additions concern to the purchase of a new notebooks, a desk and lights.

The Foundation has lease contracts for offices. Leases have lease terms of 5-6 years.

The Foundation has also a certain lease of a printing machine with low value. The Foundation applies the 'lease of low-value assets' recognition exemption for this lease.

10. Financial assets and financial liabilities

a) Financial assets

Financial assets	31 December 2020	31 December 2019
	EUR	EUR
Debt instruments at amortised cost		
Trade and other receivables (Note 12)	13.866	18.479
Total financial assets	13.866	18.479
Total current	13.296	17.909
Total non-current	570	570

b) Financial liabilities: Borrowings

Financial Liabilities	31 December 2020	31 December 2019
	EUR	EUR
Other financial liabilities at amortised cost, other than interest-bearing loans and borrowings		
Trade and other payables (Note 14)	284.438	176.144
European Parliament grant	-	
Total other financial liabilities	284.438	176.144
Total current	284.438	176.144
Total non-current		

			31 December	31 December
	Interest rate	Maturity	2020	2019
	%		EUR	EUR
Current interest-bearing loans and borrowings				
Leasing liabilities	2,08%	2021	24.674	22.704
Total current interest-bearing loans				
and borrowings			24.674	22.704
			-	
Non-current interest-bearing loans and borrowings				
Leasing liabilities	2,08%	2021-2024	35.414	83.263
Total non-current interest-bearing				
loans and borrowings			35.414	83.263
Total interest-bearing loans				
_			60.088	105.967
and borrowings				103.307

c) Fair Values

Set out below is a comparison, by class, of the carrying amounts and fair values of the Group's financial instruments:

	31 December 2020		31 Decembe	er 2019
	Carrying	Fair	Carrying	
	amount	value	amount	Fair value
	EUR	EUR	EUR	EUR
Financial assets				
Trade receivables	13.866	13.866	18.479	18.479
Total	13.866	13.866	18.479	18.479
Financial liabilities				
Leasing liabilities	60.088	60.088	105.967	105.967
Trade and other payables	284.438	284.438	176.144	176.144
Total	288.111	282.111	282.111	282.111

The Party has mainly short term financial assets and financial liabilities for which the carrying amount is a reasonable approximation of the fair value. Moreover the carrying amount of leasing liabilities is also a reasonable approximation of the fair value.

11. Financial risk management

a) Financial risk factors

The Foundation's principal financial liabilities comprise trade and other payables. The main purpose of these liabilities is to finance the Foundation's operations. The Foundation's principal financial assets include trade receivables, and cash and short term deposits that derive directly from its operations. The Foundation is exposed primarily to market risk, currency risk and liquidity risk, whereas these risks are insignificant. Foundation's managers oversee the management of these risks.

The Foundation's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Foundation's financial performance. The objective is to identify, quantify, manage and then monitor events or actions that could lead to financial losses.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Foundation is exposed to credit risk from its

operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions.

Credit risk from operating activities

The trade receivables balance contain the member foundation contributions to be received. The impairment policy of the Foundation is to write-off receivables as soon as they remain unpaid for two years. When members are excluded, the related receivable is often waived and written-off.

For its receivables, the Foundation has policies to ensure that her receivables on member parties or members are closely monitored by the finance department. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment.

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groups of various customer segments with similar loss patterns (i.e. customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written-off if past due for more than two years and are not subject to enforcement activity. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 12. The Foundation does not hold collateral as security.

The Foundation has no historic of credit loss on trade receivables, therefore no exposure to expected credit losses.

Credit risk from financing activities

Credit risk from balances with banks and financial institutions is managed by the Foundation's finance department in accordance with the Foundation's policy. The Foundation's maximum exposure to credit risk for the components of the statement of financial position at 31 December 2020 and 2019 is the carrying amounts as illustrated in Note 13.

Liquidity risk

The Foundation monitors its risk of a shortage of funds using a liquidity planning tool. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Less than 1	Between 1	Between 2		
At 31 December 2020 (EUR)	year	and 2 years	and 5 years	Over 5 years	Total
Trade and other payables	284.438	-	-	-	284.438
Leasing liabilities	24.675	24.675	10.738		60.088
	Less than 1	Between 1	Between 2		
At 31 December 2019 (EUR)	Less than 1 year	Between 1 and 2 years		Over 5 years	Total
At 31 December 2019 (EUR) Trade and other payables				Over 5 years	Total 176.144

Changes in liabilities arising from financing activities are shown in the table below:

	1 January 2020	Cash outflows	Cash inflows	Other	31 December 2020
	EUR	EUR	EUR	EUR	EUR
Current leasing liabilities	-	(24.674)	-	49.348	24.674
Non-current leasing liabilities	-	-	-	35.414	35.414
Total liabilities from financing activities		(24.674)		84.762	60.088

	1 January 2019	Cash flows	31 December 2019
_	EUR	EUR	EUR
Current interest-bearing loans and borrowings (excluding items listed below)	0	0	0-
Total liabilities from financing activities	0	0	0-

b) Capital management

The Foundation's objectives when managing capital are to safeguard the Foundation's ability to continue as a going concern:

EUR	31 December 2020	31 December 2019
Cash and cash equivalents - note 13	217.173	91.764
Net cash	217.173	7.036

12. Trade and other receivables

EUR	31 December 2020	31 December 2019
Trade receivables	0	1.909
Trade receivables - net	0	1.909
Accrued income and deferred charges	13.296	16.000
Other receivables	570	570
Total trade and other receivables	13.866	18.479
Non-current portion	570	570
Current portion	13.296	17.909

The ageing of the trade receivables is as below:

	Days past due					
31 December 2020	Current	<30 days	30–60 days	61–90 days	>91 days	Total
	EUR	EUR	EUR	EUR	EUR	EUR
Total gross carrying amount at default	13.296		-	-		13.296
31 December 2019						
	Current	: <30 day	s 30–60 da	ys 61–90 days	s >91 days	Total
	EUR	EUR	EUR	EUR	EUR	EUR
Total gross carrying amount at default		1.80	Э		100	1.909

13. Cash and cash equivalents

EUR	31 December 2020	31 December 2019
Cash at banks and on hand	217.173	91.764
Total cash and cash equivalents (excluding bank overdrafts)	217.173	91.764

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short-term deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of the Foundation, and earn interest at the respective short-term deposit rates.

Cash and cash equivalents include the following for the purposes of the statement of cash flows:

EUR	31 December 2020	31 December 2019
Cash and cash equivalents	217.173	91.764
Bank overdrafts	-	-
Cash and cash equivalents (including bank overdrafts)	217.173	91.764

14. Trade and other payables

EUR	31 December 2020	31 December 2019
Trade payables	108.333	129.500
Social security and other taxes	8.105	46.644
European Parliament Grant	-	-
Accrued expenses and deferred income	168.000	-
Total Trade and other payables	284.438	176.144
Non-current portion		
Current portion	284.438	176.144

The trade and other payables of the Foundation are current financial liabilities and are non-interest bearing and are normally settled on 30 day terms.

The movement of the European Parliament Grant of the period is further detailed in the table below:

	31 December 2020	31 December 2019
At 1 January		11.047
Release grant into statement of profit or		
loss	-1.102.913	-1.096.144
Grant carried-over 2019	0	-11.047
Grant awarded	1.102.913	1.096.144
Grant carried-over 2020	168.000	
At 31 December	168.000	-

15. Events after the reporting date

1) COVID-19 Crisis:

The coronavirus outbreak has had huge impacts on the EU economy. In response to the pandemic worldwide spread, many governments in affected jurisdictions imposed travel bans, quarantines and other emergency public safety measures. For example, governments have imposed restrictions on travel and the movement and gathering of people. The outbreak of the coronavirus did not require any adjustments to the figures reported in these annual accounts.

For subsequent reporting periods, COVID-19 may affect the recognition and measurement of some assets and liabilities on the balance sheet and also of some revenue and expenses recognised in

the statement of financial performance. For example, some planned events and meetings were cancelled, and revenues from external sources has decreased. The impact of these, among others effects, on the financial performance may be significant for the reporting year 2021. Based on the information available at the date of signature of these annual accounts, the further financial effects of the coronavirus outbreak cannot be reliably estimated. The situation gives rise to uncertainty on the ability of the entity to continue as a going concern. The Board is evaluating the possible measures to combat the outbreak of activities and to sustain our going concern.

2) Brexit:

On 31 January 2020, the United Kingdom withdrew from the European Union. At present, negotiations for a new partnership with the United Kingdom of Great Britain and Northern Ireland are still ongoing. The *Foundation* estimates that this event will not have a significant impact on the operations and financial situation of the entity.

Events and cooperations

September 2019

Participation: Thematic workshop on Challenges of a Common Security Policy in Europe and Asia.

A cooperation with IPB and AEPF. Berlin, 24-25.09.2019.

WORKSHOP ON CHALLENGES OF A COMMON SECURITY POLICY IN EURASIA

Statement - AEPF & IPB Conference, 23-24 September 2019, Berlin

We in the Europe Asia peace movements, resolutely recommend commitment to the idea of a Common Security. Earlier developed by the Palme Commission (1982), we are re-imagining and proposing Common Security as a peace and justice instrument as part of a people's agenda accepted by all 57 OSCE countries with the Charter of Paris (November 1990) which brought the cold war to an end.

We are living at the edge of unprecedented and multiple crises reflected in: international economic and social production processes; fragmentation of social cohesion, rise and election of nationalist authoritarianisms, an attack on multilateralism and disregard of international law, and almost irreversible climate catastrophe, and destruction of ecology. The presence of more than four million people across the world who protested on 22nd September, shows that people, especially the young want dramatic policy changes without which a climate extinction is a reality. It is clear that the climate cannot be saved in a system undergirded by unrestrained militarization, continued nuclear weaponisation, and unrestricted consumerism, neoliberal competition and economic growth in the industrialised countries.

Hegemonic politics and aggression by the US led forces and unilateral sanctions add to the spiral of violent retribution.

We activists of the international peace movements recommend:

A new security architecture where Eurasia is an appropriate geopolitical zone to move from a politics of confrontation and sanctions to a politics of cooperation, dialogue and peace. The Charter of Paris from November 1990 should be accepted as the basis for a policy of cooperation and dialog. The existing instrument for a policy of cooperation in Eurasia is the OSCE. It must be strengthened and further developed.

February 2020

Transform!europe annual conference: Middle East at historical Crossroads, 4th edition. What about democracy today?, 21-23.02.2020, Vienna

Workshop series: Security and the Left in Europe Workshop, towards a Left concept of security, in cooperation with RLS Brussels office	A facilitated series of online, invitation based, workshops about "security", its conception and use in contemporary politics. With these series of workshops we aim to foster an intersectional and transnational discussion on peace and security through the lens of today's challenges and movements (feminist, antiracist, ecological, human rights, peace, etc). In five consecutive workshops we want to allow participants to share their perspective on what security means in relation to these challenges and movements and learn from activists, scholars and members of Left parties how security is debated in different regions of Europe. The workshops should facilitate dialogue and continuous exchange that result in a publication with considerations and further questions for a concept of "security" from the Left.
Workshop 1 - introductory workshop (audio file here)	13th of July, 15:00 CEST where the concept of the workshop series was presented and discussed with invited participants
(addio mo <u>moro</u>)	How is security discussed in your country? How does your organisation discuss security? What are your priorities and expectations for this workshop series? Inputs by: Walter Baier (transform!europe), Kate Hudson (CND, rethinking security), Sara
	Prestianni (euromed rights)
Workshop 2 -Military & violent conflict	16.09.2020, 15:00 CEST
(Workshop report <u>here</u> , audio file <u>here</u>)	
	How the militarisation of European societies is impacting the security of people throughout the world, how the Left in Europe acts in relation to violent conflict and in what terms the Left can argue for a non-militarized concept of security in this context. We will have three guest speakers

who will provide inputs on these questions through the perspectives of mobilisation and protest, party politics and military conflict as well as theory and intersectionality.

What are the strengths, what are the shortcomings of Left positions across Europe, when it comes to military and violent conflicts?

Taking into account current international developments, in what terms can/or should the Left in Europe argue for a non-militarized security?

Inputs by: Heidi Meinzolt (WILPF Europe), Daniel Seifert (Rheinmetal Entwaffnen), Giorgos Katrougkalos (Syriza)

Workshop 3 -security and ecology

(Workshop report <u>here</u>, audio file <u>here</u>)

7.10.2020 15:00-17:00 CEST

How is the climate crisis and the threats that it poses for people, nature and infrastructure debated in your countries? (material impact of climate change in your country, political discourse with focus on security, relevant social movements and strategies etc)

How should a Left security concept for Europe address the threats posed globally by contemporary modes of production and consumption?

Inputs by: Tatiana Gavito (Wretched of the Earth), Naomi Kreitman (Gastivists), Natasa Ioannou (Friends of the Earth Cyprus)

Workshop 4 -security and antiracism

(Workshop report here, audio file here)

27.10.2020 15:00-17:00 CEST

What does security mean from an anti-racist perspective. We see that security is often understood among the Left in Europe in terms of foreign policy, while the perspective of what security actually means on a daily basis for

racial and religious minorities living in the EU is often lacking. What is the current state of affairs, when it comes to antiracist and migrant struggles in your countries? What should a Left security concept for Europe entail when it comes to ensuring the security of migrants and religious and racial minorities? Inputs: Mark Akkerman (Stop Wapenhandel), Anna Nasser (Transnational Migrant Coordination) Workshop 5 - security and democracy 18.11.2020. 15:00 CEST We explore the increasingly detrimental effects of (Workshop report <u>here</u>, audio file <u>here</u>) corporate and state surveillance on privacy, media freedom, democracy and everyday life. What should a security concept from the Left take into account when catering for the security needs of all people and safeguarding democracy? Closely linked, we are in particular interested in debating the impacts of policing and counter-terrorism strategies on ethnic and religious minorities and how a racialised security discourse is used by governments to restrict fundamental rights. What are the current discussions when it comes to counter-terrorism and surveillance in you countries? How should we – from the Left- address the frequently proclaimed dichotomy between liberties and security? What about privacy and security? Inputs: Narzanin Massoumi (University of Exeter), Angelika Adensamer (VICESSE, LINKS) Publication: "Security and the Left in A compiled written report of all five workshops Europe, towards a new Left concept of 2020, including a collection of best practices

security" Final Draft

European Forum 2020 - Workshop

Recordings here

25.11.2021, 6pm-8pm CET

Over the past six months, transform! europe and the Rosa-Luxemburg-Stiftung Brussels office, have facilitated a series of five workshops on security concepts from and for the Left. Activists of Left and progressive parties, NGOs and grassroots movements have come together to discuss "security", its conception and use in contemporary politics. With this series of workshops, we aimed to foster an intersectional and transnational discussion on peace and security through the lens of today's challenges and movements (feminist, anti-racist, ecological, human rights, peace, etc).

In this workshop, we will discuss key issues that evolved from the past months and try to highlight strategic considerations, ideas and contradictions that emerge, when discussing a Left approach to security at a European level.

Why is a discussion about security important for Left and progressive actors and what are the current security challenges for the people? How can ecology, peace, feminist and antiracism movements work together to formulate security policies that cater for the actual security needs of everyday life in contrast to those focused on military spending and action, policing, oppression and surveillance?

Speakers:

Heidi Meinzolt – Womens International League for Peace and Freedom (WILPF)

David Perejil Bricio – Podemos International Secretariat

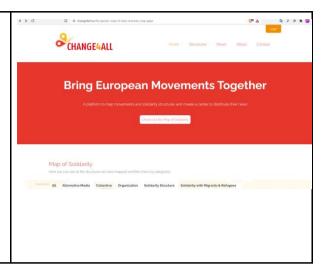

Sarah Reader – Agir pour la paix Walter Baier – transform! europe Angelika Adensamer – LINKS

Moderation: Katerina Anastasiou, Axel Ruppert

Re-activating and updating Change4all

Change4all, was created 2015 by transform!europe under the facilitation of Katerina Anastasiou, as a result of an effort to achieve visibility and solid network connections between European anti-austerity, solidarity and anti-racism movements . 2020 we relaunch the change4all platform, with new features, extensive mapping of solidarity movements and structures and a mobilization campaign that should motivate movements to use this tool.

March 2020

Greek Refugee Camps and the Covid-19 Crisis, 30.03.2020

Panelists:

Gabriel Sakellaridis, Director of Amnesty
International Greece
Iasonas Apostolopoulos, activist,
Mediterranea:saving humans, Greece

<u>Interviewer: Katerina Anastasiou</u> <u>Silent moderation: Tatiana Moutinho, Barbara</u> <u>Steiner</u>

Topic:

Two weeks into the pandemic, we discussed the living conditions refugees and migrants are forced to endure, in the detention camps on the Greek islands, the lack of sanitary infrastructure and medical care, the lockdown and the immediate need for their evacuation, in order to safeguard the health and life of the migrants and locals on the Greek islands alike. Something on which at the time, Médecins sans Frontières (Doctors Without Borders), Greek hospital personnel, doctors, activists, and even conservative migration researchers, like Gerald Knaus (one of the architects of the EU-Turkey Deal) agreed on.

April 2020

Refugees in the Balkans and the Covid-19 Pandemic, 20.04.2020

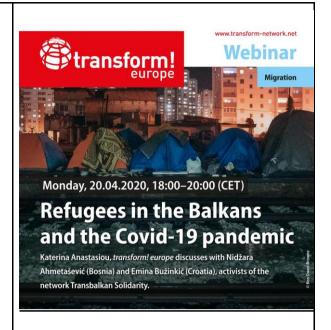

Panelists:

Nidzara Ahmetasevic (Bosnia) and Emina Buzinkic (Croatia), activists of the Transbalkan Solidarity network.

Interviewer: Katerina Anastasiou Silent moderation: Tatiana Moutinho

Topic:

Four weeks into the pandemic, we discussed the living conditions of tens of thousands of refugees and migrants, are forced to endure currently trapped in the Balkans. While some are housed in official structures, many more fall outside the system and are solely supported by activists, volunteers, and the local population. The COVID-19 pandemic only adds more dangers and precariousness to their lives, with local governments taking advantage of the situation to continue with politics and policies that stigmatize, dehumanize and push people to the verge of existence.

Mai 2020

Sea Rescue in the Mediterranean in Times of the Covid-19 Pandemic, 18.05.2020 Cooperation with RLS, North Africa office

Panelists:

Simeon Leisch from the emergency hotline Watch The Med - Alarmphone, Lucia Gennari from civic sea rescue mission Mediterranea Saving Humans, Cédric Fettouche from Sea Eye

Interviewers: Ines Mahmoud, Katerina

Anastasiou

Silent moderation: Tatiana Moutinho

Topic:

Eight weeks into the pandemic, a dangerous rescue gap is actively being created in the central Mediterranean. One of the greatest challenges to tackle during the Covid-19 crisis is the systematic withdrawal of European authorities from this area. The results of European countries no longer respecting their legal search-and-rescue obligations within European Search and Rescue (SAR) zones include pushing boats back to North Africa, where especially in Libya migrants are met with conditions previously described by international organizations such as *Human Rights Watch* and the UNHCR as violations of human rights. In this webinar, we discussed together with Simeon Leisch from the emergency hotline Watch The Med -Alarmphone, Lucia Gennari from civic sea rescue mission Mediterranea Saving Humans, and Cédric Fettouche from seaeye, the abrogation of the EU responsibility in this area. We will ask about the difficulties search-and-rescue missions are now facing in the Mediterranean, what migrants pushed back to North African shores have to contend with, and what happens to the bodies of those who have lost their lives in the highly risky attempt to cross the Mediterranean. This webinar was a collaboration with the RLS North Africa office.

Othering the Other: <u>Migration and Media</u> Disinformation

In this webinar we discuss the nexus between fake news, misinformation and migration. We address the impact of fake news in the migration discourse and try to give insights on the mechanics of fake news, how they are weaponized by far-right and fascist groups and how we can resist them.

Tenerife Antirrumores and the Disinfaux Collective focus on the cases of Tenerife and Lesbos respectively, and together with Fulvia Teano, a young researcher who focuses on the case of Riace, we will explore the transnational aspects of the issue.

Cooperation with Sinistra xx1, research project on the case of Riace and its European dimensions

Title: Global compact vs. local impact
The self-valorisation of migrant labour:
Riace as a paradigm?

Summarv:

In this publication we present four specific position papers, which are the base of the research project "Global compact vs. local impact. The self-valorisation of migrant labour: Riace as a paradigm?" promoted by Sinistra XXI with the support of transform! europe.

It concerns the migration phenomenon in relation to the Italian Government's policies about three international and European fields: the non-signature of the Global Compact for Safe, Orderly, and Regular Migration agreement; the securitarian management of the migration crisis; the toxic narrative regarding migration which is focused on the alternative hospitality experiences.

Authors: Alessandro Tedde

Lawyer and jurist, became interested in constitutional law when he graduated from the University of Sassari. He then furthered his studies as a student at the "Silvano Tosi" Seminar of Parliamentary Studies and Research at the University of Florence. He is currently attending the PhD in *European Union Law and National Legal Systems* at the University of Ferrara, where he is working on the theme of democratic and social reform of the European treaties. Founder of the think tank Sinistra XXI, he is the author of different studies analysing the migration phenomenon from a legal perspective.

Andrea Devoto

Graduated in Law at the University of Sassari, has attended the school of specialisation for legal professions at the University "La Sapienza" of Rome. He is a lawyer and mainly operates in criminal and immigration law.

Francesco Nurra

Graduated in Historical and Oriental Sciences at the University of Bologna, is currently undertaking a PhD in Urban and Regional Development at the Polytechnic University of Turin. He also took part in the specialization course in Critical Theory at the University of Milano Bicocca.

Fulvia Teano

Graduated from a Bachelor in Social Sciences at Glasgow Caledonian University and a Master's Degree in International Security Studies at Scuola Superiore Sant'Anna (Pisa) and University of Trento, works as an IT security analyst for NTT Data Italia. Her research focus concerns primarily the study of fake news regarding migration and the role of government and civil society organizations in combating xenophobia and racism in the media.

A. Research

2020 June - December:

Hundred Shades of the European Union.

- Mapping the Political Economy of the euro peripheries.

Transform! europe and the Rosa-Luxemburg-Stiftung have launched preparation of a long-term study into the socio-economic and political comprehensive understanding of the complex European Union peripheries, from different perspectives and with the use of comparative analysis.

This study aims to constitute a relevant tool for the discussion of the future of "European integration" and to provide an informed basis for building appropriate radical

In 2020:

Preparation, Conception and data collection was conducted by Junior Research Team

Call for Tenders
Project Description

left policies, both at the national and European Union levels. Ultimately, this research project will also represent a tool for building and fostering cooperation strategies between both regions, promoting coordinated action by European left-wing organisations and political representations.

The process of integrating countries into the European Union has led, over the past decades, to the emergence of two major peripheral regions: the so-called "old periphery" — which encompasses the countries of Southern Europe (SE) — and the "new periphery", which includes the countries of Central and Eastern Europe (CEE). These two regions will be the subject of our comparative analyses.

In the first stage of the project in 2020 the research focused on data package collection which will be used in further steps.

In the second stage of the project we will prepare two maps of peripherality, producing two comparative analyses for the SE countries and CEE countries, by focusing on groups of data as a criterion for intraregional comparison. Lastly, we aim to develop a comparative analysis between these two regions, which will improve and deepen the knowledge of one another, since where there is weak (or no) knowledge, there cannot be any good policy.

2020 January - December

Political and electoral behaviour of supporters of the radical left, CZ sociological study.

Study was conducted by SPED (Society for European Dialogue), Institute of the Czech Left and KSV (Social Sciences Club) with support of transform! Europe

Study consists of five parts. The first part indicates overall position of the left-wing parties among the general public from 2018, the second part is dedicated to the positions of left-wing entities in the 2019 European Parliament elections, the third part looks at the results of the left-wing parties in the 2020 country elections and post-election situation, the fourth part analyses voter profiles left-wing parties towards the end of 2020, the fifth part offers possible scenarios for

Study was published in <u>Czech</u> with English executive summary.

further developments and some the situation of the radical left in Europe (more specifically within the EU).

Furthermore, from other analytical material or from the meetings of expert seminars, e.g. the Democratic Academy (MDA) and the final Transform research report. Methodologically, data from national public research was used to prepare the report opinion implemented by CVVM in 2018-2020 and other research institutions (MEDIAN, STEM, KANTAR), Czech Statistical Office data from European elections parliament in 2019 and regional elections since 2000, and research into the views of left-minded people implemented by the Social Sciences Club in September 2020.

B. Education

2020 January - December

Website Platform: "Five Beers? No, thanks!" conceptualized by the Fundacja Naprzód (PL) and supported by transform! europe.

This belongs to the civic education website category. The platform runs in Polish language for providing information and resources for people already involved in the anti-fascist movement or are sympathetic to it and would like to learn more.

Various materials such as the brochure and films, helping those drawn to the anti-fascist movement to improve their knowledge and gain information about current activities are used. Apart from basic information on the threats of fascism and films with already active anti-fascist activists, we have included graphics, posters and recommendations for films, performances, and music. We want this website to feature more cultural content and to increasingly be created by people from the younger generation.

The aim is to create a friendly and interactive website for young people who want to take initiatives to get involved in building an open society, sensitive to various forms of discrimination and harm. We want those coming to our website to feel that they are not alone and to find information on initiatives undertaken by various NGOs and informal groups.

http://www.5piw.edu.pl

The name of the project has been chosen, as around a decade ago a group of well-known representatives of the extreme nationalist right in Poland were pictured giving a Nazi salute.

This photo was published in a Polish national newspaper and when asked about it by journalists they answered that they were simply ordering 'five beers'.

In response we categorically say 'FIVE BEERS? NO THANKS!'

The slogan also highlights how some who propagate fascist ideology pretend not to do so and that it is necessary to educate young people how to recognise fascist ideas and organisations as Cooperation with other non-government organisations and reaching young people is therefore envisaged.

This first component is linked to the second one educational initiative "Watch Out", see below.

well as their dangers.

Online educational initiative "Watch-Out", conceptualized by the 'NEVER AGAIN' Association and the Fundacja Naprzód (PL), supported by transform! europe.

This website focuses on developing new educational materials, which can be used in schools and by non-governmental organizations whose aim is to strengthen the civic society by e.g. organizing training courses, seminars, workshops, and other artistic activities for youth. We gave up interactivity here to increase its role in e-learning, which is more and more important in our everyday reality. This platform runs in Polish and English languages.

There are seven mini-lectures on the website reminding you of what fascism led to and about its threat. After listening to the lectures, the student / teacher / educator can use the auxiliary questions on the discussed topic and read the answers sent by the lecturers. All material in this section is annotated in English or translated.

The format of these lessons is a half an hour presentation, which is supplemented with additional Q/A concerning the lessons. Additionally, some selected materials could be also of use for English/Polish language as Foreign language teaching

KU PRZESTRODZE (Watch-Out)

Examples of the topics/lectures covered at the launch:

- What lesson should we learn from history,
- Genocide,
- Psychology of Nazism,
- Fascist model of family,
- Forced labour,
- Pedagogy of remembrance,
- Racism and slavery in USA.

courses as well – special materials, based on the materials from the mini-lectures. The website offers lesson plans in history, social studies and educational lessons which are closely related to the Polish core curriculum, these will not be translated to English.	
Content of this Website would be enriched by 2 or 3 new lectures/lessons given by academics every year.	

C. CEE Media Cooperation Strategy and Publications

CEE Media Cooperation has been pursued since 2019 when the first formalised cooperation with selected CEE Media was established with the aim to enhance information flow, increase transform! europe's visibility and boost its outreach in the respective CEE region gaining new partners and contacts for various projects and activities of our Network.

Facilitation, coordination and editorial work was executed through transform! europe. In 2020 the cooperation with diverse Website Media platforms, Journals and Newspapers was further developed (see below).

Be-friended Media:

<u>časopis !argument</u>, OVIA,CZ, Website platform

<u>BALMIX - transform! hungary</u>, Közép-Európai
Fejlesztési Egyesület,HU, Website platform

Eszmélet, Eszmélet Sajtó Alapítvány, HU, Journal

Nazse Argumenty, Fundacja Naprzód, PL, Journal

<u>Lūžis</u>, <u>DEMOS Institute of Critical Thought</u>, LT, Magazine

Publishing House "Baricada", BG, RO Website platforms and EN language mutation:

http://baricada.org/, https://ro.baricada.org/, https://en.baricada.org/.

<u>Bilten</u>, Regionalni Portal, CR, publishing in Serbo-Croatian

Haló noviny, CZ, Daily Newspaper

Mašina, RS, Website Portal,

Transform! Europe has supported through its CEE Media Cooperation Strategy creation of two new leftists outlets:

In Poland: <u>Fundacja Naprzód</u> (tr! Member's Organisation), supported by transform! Europe, have launched the <u>Nasze Argumenty</u> (**Our Arguments**) **Journal**. Released quarterly.

The goal is to initiate dialogue between various left-wing environments. It aims to ensure that elements of the socialist programme are present in political discourse. Presenting information and news and opinions from Poland, the EU and the World.

In 2020, four issues have been realised each dedicated to its own focus: *Recover History. Time for leftist Feminism. Faces of the Pandemic. Humankind and Religion.*

Selected transform! eurpe's events and publications were promoted through this Journal as well as texts from within transform! production has been re-published here.

In Lithuania: <u>DEMOS Institute of Critical Thought</u>, supported by transform! europe, have launched *the <u>Lūžis</u> (Fracture) Magazine*. Released twice a year.

Lūžis is one of the rare left-wing magazines in Lithuania edited by progressive academics, political activists and trade unionists from Vilnius and Kaunas.

Selected transform! eurpe's events and publications were promoted through this Magazine as well as texts from within transform! production has been re-published here.

Executing the CEE Media Cooperation Strategy has significantly contributed to outreach of transform! and its visibility in this region by increased sharing, re-publishing of articles and Webinars in multiple Central Eastern European languages, namely: Czech, Polish, Bulgarian, Romanian, Lithuanian, Hungarian, Serbo-Croatian and partly Russian.

By doing so transform! europe has boosted the dialogue and regular exchange with the CEE Media Partners, creating new original content, gaining new contacts and exploring possibilities for further cooperation and more importantly, a new communication channel was created that allows also a promotion of our events, publication, calls for support and solidarity actions, petition etc. We have also enriched our Website content by more news and information from the CEE region.

Brief statistics:

- 3 ePapers published in BG, RO;
- 12 Yearbook 2020 "Europe in Brave New World" re-published in some of these languages BG, RO, CZ, HU, PL, LT and EN and the Yearbook was promoted through our partners' communication channels;
- 11 Webinars were subtitled in some of these languages BG, RO, CZ, PL or HU;

- over 40 texts originally published by transform! europe were picked by our CEE Media Partners and re-published in one or more CEE languages.
- Finally our content was also re-published or promoted in Serbia through our Member Organization CPE and befriended leftist website portal Maśina as well as we supported Serbo-Croatian Publication.

Additionally, various ePapers, Books, eBooks and other publications focusing on CEE were published in cooperation with our partners (see point 1. The media and publication activities). To see the whole spectrum of texts published on transform! Website related to the CEE region please refer to transform! Website, tags Central and Eastern Europe).

D. Others
